

Elevating the Landside Journey

INTRODUCTION

The airport passenger journey starts long before they reach the terminal doors...and doesn't end after they've retrieved their luggage upon arrival. Foster a seamless, pain-free, forgettable-in-the-best-way landside experience with parking and transportation services by ABM. Our services help travelers begin (and end) their trips on the right foot.

● Powered by ABM **Vantage™**

ONLINE BOOKING

Elevate your online booking functionality to eliminate parker anxiety before arrival. Parkers can select their lot (economy or premium) and be assigned a spot, easing full-lot worries and helping them get to their flights faster. Wayfinding then provides direction. Parkers can upgrade their reservation under the same convenient transaction. Our parking products increase revenue through targeted upselling and maximized parking utilization.

FRICTIONLESS ENTRANCE AND EXIT

Maximize your PARCS and Online Booking System functionality to facilitate an easy entrance and exit. Parkers either scan a QR code or cameras recognize their license plate number, offering a convenient no-cash, no-card, ticketless parking experience.

SHUTTLE TRANSPORTATION

Once travelers or employees exit their lot, friendly ABM team members can welcome them onto one of our shuttles for transport to the terminal. We offer traditional gas-powered shuttles, alternative fuels solutions like CNG, propane, or biodiesel, and can even electrify your fleet, complete with EV charging infrastructure.

EV CHARGING

As more drivers switch to electric vehicles, the race is on to provide and monetize charging infrastructure. Airports with EV charging stations not only provide a convenient, desirable traveler amenity, they also generate substantial additional revenue. Our team can help asset owners maximize subsidy programs for our clients.

VALET

First-class travelers expect first-class amenities before they reach their plane seat. Offering a premium experience with valet at the terminal doors meets the not-cost-conscious traveler's need for comfort and convenience. Valet service also allows stack parking during peak hours to maximize space and increase on-site revenue.

CURB MANAGEMENT

Curbside can be chaotic, potentially ending an otherwise good trip on a bad note. Instead of reactively responding to driver disputes or managing disorderly traffic flow, our Travel Ambassadors proactively manage queues, taxis, and rideshares, representing the passengers, providers, and airports with equal professionalism and efficiency.

We transport
4.5+ million
passengers on shuttles daily

We operate a fleet
of **1,000+**
airport
shuttles

We serve over
1/2 of the
Top 50
airports
